** Note: Master plan underway for this area; land uses to be refined as new information becomes available.*

*** Environmentally Sensitive Areas are areas identified in previous Comprehensive Plan efforts, consisting of steep slopes (>20%) and riparian corridors; and natural areas of the high priority for preservation identified by the Northern Flint Hills Audubon Society.*

**** Special Floodway Overflow Area: This area is proposed to be Preserved Open Space and has been identified as part of a series of recommendations to protect the levee and bridges from being overtopped by flood events. Strategies to ensure the permanent protection of these areas will be identified as part of the Manhattan Urban Area Comprehensive Plan Update process.*

***** Flood Hazard Areas include designated FEMA floodway and areas innundated during the 1993 Flood Event where new development would be prohibited.*
