

Did You Know?

That recycling is a huge part of our future. A good portion of trash found on our streets and neighborhood could be recycled. Here are a few items that can be reused.

Recyclable Items:

Glass: Clear, unbroken.

Newspaper: dry and clean.

Aluminum: Pop cans.

Plastic: sort them by grade.

Cardboard: flat and corrugated.

Trash and Debris Disposal

Trash And Debris Disposal

Trash disposal is key for a clean and orderly environment. You can do your part by following the simple guidelines outlined in this brochure. If you would like to read the formal ordinance you can find it on our website located at www.cityofmnhk.com and click **Code of Ordinances.**

Put A Lid On It

Garbage and trash receptacles (metal or plastic containers) shall have a watertight body and shall have a tight fitting cover which shall be secured at **all** times

Out Of Sight Out Of Mind

All garbage and trash receptacles shall be stored behind the applicable front yard setback distances contained in the zoning ordinance of the city. (about 25 feet from property line) If it isn't trash day **do not** leave your containers out!

Sufficient Storage

The owner of any dwelling or building shall provide a sufficient number of receptacles to handle the garbage and trash generated by such dwelling or building occupants.

Unwanted Visitors

Scattered trash attracts animals such as:

Crows Cats

Raccoons Dogs

Mice

Rats
